

# MUHAMMAD ULIL ALBAB

Samarinda, East Kalimantan | +6281234828205 | sir.ulilalbab@gmail.com | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Computer Science graduate (GPA 3.95/4.00) with hands-on experience providing onsite IT support, from troubleshooting hardware and printers to maintaining local network connectivity for end-users. Comfortable working across Microsoft Word, PowerPoint (basic), Excel (basic), remote support tools like AnyDesk and Chrome Remote Desktop, and video conferencing platforms such as Zoom and Google Meet. IBM-certified in IT Support fundamentals. Good communicator, organized, and responsible.

## WORK EXPERIENCE

### Dinas Perpustakaan dan Kearsipan Kota Samarinda

Jul 2024 – Sep 2024 | Samarinda, East Kalimantan

#### Software Developer & IT Support Intern

- Developed, installed, and managed a web-based archive management system on local servers using XAMPP, CodeIgniter, and MySQL
- Performed data digitization processes with a strong service orientation, improving archiving efficiency and data accessibility for end-users
- Created digital content for publication needs, serving as both on-camera talent and video editor
- Conducted live demonstrations and interactive training sessions for staff to ensure effective adoption and utilization of the new archive management system
- Provided onsite hardware troubleshooting for PC units and printers, resolving local network connectivity issues for workstations connected to the local server environment
- Utilized Microsoft 365 applications (Outlook, Teams, SharePoint) for daily collaboration, document management, and cross-team communication
- Assisted team members and users with technical issues and system setups remotely using AnyDesk and Windows Remote Desktop
- Set up and managed video conferencing tools (Zoom, Google Meet, Microsoft Teams) for live presentations, user training sessions, and virtual meetings

### Badan Pusat Statistik (BPS)

Aug 2026 – Feb 2027 | East Kalimantan, Indonesia

#### IT Specialist Assistant Intern

- Provided daily IT support at BPS East Kalimantan, including troubleshooting computer issues and documenting office IT systems and equipment
- Collaborated with the IT team to resolve technical issues and support smooth day-to-day operations
- Performed data-related tasks, including data entry, data cleaning, and data visualization to support reporting and analysis
- Participated as on-screen talent in educational videos designed to share useful information with the public
- Edited carousel content for educational and public outreach purposes
- Managed WiFi router configuration and network connectivity to ensure stable and reliable internet access across the office
- Performed operating system updates and software maintenance on office computers to keep systems secure and up to date
- Developed simple applications to support unit workflows and operational tasks

## EDUCATION

### Universitas Muhammadiyah Kalimantan Timur

2026 | Samarinda, East Kalimantan

#### Bachelor of Computer Science

Cumulative GPA: 3.95/4.00

## LEADERSHIP EXPERIENCE

### Mobile Application Development Project

#### Project Team Leader

- Led a 4-member team in designing and developing a mobile-based Islamic companion application named "Dakwah'y Up" utilizing Flutter
- Managed the project development lifecycle, demonstrating effective task organization by delegating tasks, monitoring timelines, and proactively resolving technical blockers, including incident escalation when required to maintain project momentum
- Engineered the local integration of core database features and developed an innovative AI-powered chat assistant utilizing the Gemini API

# CERTIFICATIONS

---

## BNSP Certified Associate Data Scientist, Diskominfo Digital Talent Scholarship

Aug 2025

Learn about Data Science Methodology & Tools, Data Collection, Processing & Preparation (select, clean, validate), Statistics Analysis, Visualization, Machine Learning Modeling, and Evaluation

## Technical Support Basics for Everyone, IBM (edX)

Covered IT Support fundamentals, IT infrastructure, ticketing management, and customer support

# SKILLS

---

Python, SQL, MySQL, Microsoft Excel, Pandas, NumPy, Scikit-Learn, Machine Learning Modeling, Deep Learning, Critical Thinking, Analytical Communication, Teamwork, Project Management, Creative Innovation, Hardware Troubleshooting, Network Support, Microsoft 365, Remote Support Tools, Video Conferencing

# PROJECTS

---

## Classification & Web System - Diabetes Detection Using Naïve Bayes

- Built a web application using PHP and MySQL that processes user-inputted symptoms through a Bayesian inference engine to assess diabetes risks, featuring role-based dashboards and automated diagnostic reports with medical management recommendations

## Forecasting - Stock Price Prediction Using Support Vector Regression and Genetic Algorithm

- Published a SINTA 3 national journal focused on forecasting PT Aneka Tambang Tbk stock prices using 1,202 historical data points. Optimized Support Vector Regression parameters using a Genetic Algorithm, successfully reducing prediction errors to a MAPE of 2.42%

## Computer Vision & Classification - Facial Expression Recognition Using Convolutional Neural Network

- Developed a Deep Learning model utilizing Convolutional Neural Networks to detect and analyze human facial features. Engineered the system to accurately classify five core emotional states from image and real-time inputs: angry, sad, surprised, happy, and neutral

# LANGUAGES
